FACEBOOK CHAT: HOW TO USE THIS APP TO INCREASE YOUR SALES!

www.SellsLikeHotCakes.co

Hi guys and welcome back to my video series and I continue to show you amazing apps on the shopify store to boost your sales.

Here's what you'll learn today:

- ***How to take advantage of one of the biggest social media platforms out there and start raking in your PROFITS!***
- ***How to add Facebook chat to your Shopify and how to set it up***
- ***How to interact with customers directly through the chat platform. (A lot of customers feel better when they can talk directly with the seller)***
- ***Get quick feedback from customers; lets you know if your doing the right thing and what to change/improve on if you're not.***

Today we have one of the most important apps, "Facebook chat by Beeketing"; you can always find it in the Shopify app store. This app allows you to have Facebook chat on your shop's website. So, if you go to my store, and you look to the bottom left corner, you will see a little button that says "Send a message". So, this app allows customers to interact with you easily through Facebook. When you click on the button, a small window will pop-up and at the top there is my shop's name and the number of likes; there is also a like button.

Under the page name, you can write your question which will send directly to the shop's Facebook account. So, a customer can type right here, send it, and you can respond from right here on your Facebook messages. I really recommend this little app; it will help you a lot. This will make your shop more interactive and help you answer the customer more quickly. Thank you for watching and I will see you in the next video
